## Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

### Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- |                                       |            |
|---------------------------------------|------------|
| By a small entity (Sec. 1.27(a))..... | \$665.00   |
| By other than a small entity.....     | \$1,330.00 |
- (b) Issue fee for issuing a design patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$240.00 |
| By other than a small entity.....     | \$480.00 |
- (c) Issue fee for issuing a plant patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$320.00 |
| By other than a small entity.....     | \$640.00 |

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 2-11, 30-32 and 42-47 allowed.
2. The following is an examiner's statement of reasons for allowance.

Independent claims 5 and 6 recite a device with the following combination of features: a package comprised of a housing which receives a substrate such that the housing and substrate define a chamber into which multiple features face; a first port for accessing the chamber; and a first set of multiple fluid distribution channels disposed between the first port and the chamber directing fluid flow between multiple different regions across the first side of the substrate. Claim 5 adds the limitation of some of the fluid distribution channels being valved so as to selectively close or open or permit fluid flow out of the chamber to the first port. Claim 6 adds the limitation of the fluid distribution channels being capillary sized so that capillary action retains the fluid in the chamber in the absence of a pressure differential across the channels. Claim 31 recites a method of using the device which includes the steps of: either adding or removing fluid through the first port such that fluid is directed by the distribution channels across the first side of the substrate and the distribution channels being capillary sized so that capillary action retains the fluid in the chamber in the absence of a pressure differential across the channels. Claim 32 recites a method of using the device which includes the steps of either adding or removing fluid through the first port such that fluid is directed by the distribution channels across the first side of the substrate and the method additionally comprises the formation of bubbles in at least one of the fluid distribution

Art Unit: 1743

channels to form a bubble in the corresponding channel to retain fluid in the chamber.

The Examiner did not find prior art that taught or suggested these combinations of features.

The Examiner considers the references "Freeman" (WO 96/30124) and "Austin" (5,427,663) to be the closest prior art. Freeman teaches a device comprised of a housing with a substrate with fluid distribution channels and an input port, but does not teach valved fluid distribution channels. Austin teaches a device comprised of a similar housing with distribution channels, but does not teach an input port or valved distribution channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
